CATALOG DESCRIPTION

Elements of microprocessor-based systems; hardware interfacing and software design for their application. Laboratory.

COURSE OBJECTIVES (ABET Design Content 50%) [Lab fee: \$151.00]

Official: Experience in the elements of microprocessor-based systems, hardware interfacing and software design for their application. Laboratory.

Actual: Students learn the functional and technological characteristics of microprocessor structures, memory components, peripheral support devices, and interface logic. Through laboratory experiments and examples, students learn how to integrate and apply microcomputer subsystems and components to common interfacing problems. Although the Atmel ATxmega128A1U microcontroller will serve as the vehicle for exploring these topics, students gain the experience to generalize the concepts to other microprocessors.

TEXTBOOKS

F. Cady, *Microcontrollers and Microcomputers Principles of Software and Hardware Engineering*, Second Edition, Oxford University Press, New York, NY, 2009. ISBN13: 9780195371611, ISBN10: 0195371615. See <https://tinyurl.com/4744-uP>.

INSTRUCTOR/PI OFFICE HOURS

You may go to any PI available, not just the one teaching your lab section, as necessary, for help during their [office hours](#). You are encouraged to use e-mail to communicate with the instructors and PIs. PIs may also hold a few help sessions, which will be announced in Slack.

Name	Khaled Pakizeh Hesari	Sobhi (Sam) Hosni	Jared Holley	Hadrien Roy
e-mail	kpakizehhesari@ufl.edu	shosni@ufl.edu	jaredrholley@ufl.edu	hadrienroy@ufl.edu

Name	Spencer Comora	Scarlett Pinedo	Savvas Ferekides	Shida Yang	Bryce Herrera
e-mail	scomora@ufl.edu	spinedo@ufl.edu	sferekides@ufl.edu	shidayang@ufl.edu	b.herrera@ufl.edu

LECTURE FORMAT

During this special semester, the course will be entirely synchronous. This means that your lectures and labs will occur at the times specified when you registered. We will utilize [Zoom](#) for our lectures and labs.

QUIZ/PRACTICAL SCHEDULE

Our quizzes and practicals are administered **in the evenings**. All of our Quizzes, Practicals, and our Final Exam will utilize Honorlock with Zoom.

Quiz/ Practical/Final Exam Schedule

ITEM	DATE	TIME
Lab 0 Quiz	Thur, 21 Jan	10:40am
Lab 1 Quiz	Mon, 1 Feb	9:20pm
Lab 2 Quiz	Mon, 15 Feb	9:20pm
Lab 3 Quiz	Mon, 22 Feb	9:20pm
Lab 4 Quiz	Tues, 9 Mar	10:40am
Practical 1	Wed, 10 Mar	8:20pm
Lab 5 Quiz	Tues, 16 Mar	10:40am
Lab 6 Quiz	Tues, 30, Mar	10:40am
Lab 7 Quiz	Tues, 6 Apr	10:40am
Lab 8 Quiz	Tues, 13 Apr	10:40am
Practical 2	Wed, 21 Apr	8:20pm
Final Exam	Sat, 24 Apr	5:30pm

HARDWARE PURCHASES

- The *Digilent Analog Discovery 2 (DAD) board* is required for this course (and many other ECE courses). DADs are presently available from the UF Bookstore for \$215, while supplies last; they are also available from [DigiKey](#), [Adafruit](#), and other companies, but for a significantly higher price
- You **MUST** have and use your own laptop computer (or in this special online semester, a desktop computer is fine) for this course. If your computer does not have **three** USB ports (one your uPAD, one for your DAD, and one for the 3701 PLD), then you will need to buy a USB Port Expander (generally, \$7 to \$15). (Two USB ports would be enough if you don't mind switching out your DAD and 3701 PLD cables.)
- For one of the labs and one of the Practical Exams, you will need either your PLD from 3701 (which may be one of several types, depending on when you took the course) or your PLD for 4712 (probably a DE10-Lite).
- Because our quizzes, practicals, and final exam will all use Honorlock, you must have a speaker or set of speakers for your computer for these assignments. Neither headphones nor earbuds will not be allowed.
- A UF 4744 lab kit will be (snail) mailed to you prior to your second lab meeting (Lab 1) or you will pick it up from somewhere (TBD) in or around NEB. This kit contains the additional hardware that you will utilize over the course of the semester. The 4744 lab kit was designed by *Out of the Box: Electronics and Robotics*, <http://ootbrobotics.com/> to meet my specifications. The 4744 lab kit is included in your lab fees. Your kit comes with multiple printed circuit boards (PCBs) – the μ PAD 2.0, μ PAD Memory Base (with EBI), μ PAD Switch and LED Backpack, μ PAD Robotics Backpack, and the μ PAD Analog Backpack. **You probably cannot buy the lab kits separately, so please be careful as you design and construct your circuits this semester.**

SOFTWARE REQUIREMENTS

Atmel Studio, an integrated development environment (IDE) for developing and debugging Atmel ARM® Cortex™-M processor-based and Atmel AVR® microcontroller applications (including our XMEGA), will be utilized in our course.

Quartus (from Altera) has been now required for *EEL 3701C* and *EEL 4712C*, so many of you already have copies. Quartus is available to download, free of charge, from Altera's website and our website. Whatever version you have from 3701 should be sufficient. Some *EEL 4744C* homework and laboratory assignments will require the drawing or simulation of logic circuits. This program greatly simplifies such assignments. Since Quartus programs will be useful in other *ECE* courses (and *CpE* courses) (*EEL 4712*, *EEL 4713*, *EEL/CEN 3923 - Design 1*, and *EEL 4924/CEN 4914 - Design 2*), we recommended that you obtain a copy if you have not already done so.

REFERENCE MANUALS (available on our class website)

- [XMEGA AU Manual](#) (Atmel doc8331)
- [XMEGA128A1U Manual](#) (Atmel doc8385)
- [Instruction Set](#) (Atmel doc0856)
- and others

Do **NOT** printout these entire documents. Other documents are available on the class website and on the Atmel website (<http://www.microchip.com/wwwproducts/en/ATXMEGA128A1U>). During our live testing assignments, the relevant documents will be made available to you.

CLASS AND EXAM BEHAVIOR

Turn off all cell phones, beepers, laptop sound effects, and other noise making devices (including your microphone) before entering our class Zoom. If a noise-making device goes off during class, I reserve the right to lower your course grade. Unless you have a question, you should keep yourself muted on Zoom. .

GRADING POLICY

Grades are periodically posted on the class web site. **It is your responsibility to check your grades regularly** (on both Canvas and our course website) since mistakes often happen when dealing with a large number of students and PIs. **All grades are final one week after posting** (on either Canvas or our course website). After curving quizzes and our final exam as needed, course grades are assigned using the 60 (D), 70 (C), 80 (B), and 90 (A) cuts. [90 \rightarrow 100 (A), 86.6 \rightarrow 89.9 (A-), 83.3 \rightarrow 86.6 (B+), 80 \rightarrow 83.3 (B), 76.6 \rightarrow 79.9 (B-), 73.3 \rightarrow 76.6 (C+), 70 \rightarrow 73.3 (C), 66.6 \rightarrow 69.9 (C-), 63.3 \rightarrow 66.6 (D+), 60 \rightarrow 63.3 (D), 56.6 \rightarrow 59.9 (D-), and 0 < 56.6 (E)].

Part of your grade on labs, quizzes, exams, etc. is based not only on solving the problem you are presented with, but the manner in which you solve it. For example, there is a difference between two programs that meet the given specifications, but one is an elegant, extensible 20-line solution, while the other is an obfuscated 100-line program that also meets the specifications but would be difficult to extend later. Just as your future employer would value the latter program less than the first, so will I in grading your assignments.

The UF grading policies for assigning grade points can be found on the following undergraduate catalog web page: <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>.

COURSE GRADE DETERMINATION

I have found that attendance is directly correlated to grades. I assumed previously that students in 4744 had learned this already, but this is apparently not the case. Therefore, attendance is required, but it will **NOT** be worth positive points. Each missed class for which I take role (which will be done regularly, but sometimes randomly) will result in a deduction of 0.5 point (out of 100) from your overall course total. There are no excuses for missed classes, but three classes can be missed without penalty. (Late arrival or early departure will count as an absence.)

Laboratory**	35%	(Note: All labs are not worth the same amount. Some labs may have extra credit .)
Laboratory Quizzes**	35%	(Note: All quizzes are not worth the same amount. Quiz 0 is probably worth 1%; Quiz 1 is 4%, other Quizzes, probably 6.67%.)
Practical (Quiz) 1	3%	
Practical (Quiz) 2	7%	
Lecture Quizzes@	3%	
Homework†	3%	
Final Exam	14%	
Total§	100%	(90+ on weighted average of Final Exam and Practical 2 results in 5% grade bonus, e.g., 86% ⇒ 91%)

All grades are **non-negotiable one week** after the grade is posted on either Canvas or our website. Please don't come to me after the final grades have been posted with a hard-luck story.

* A grade of **65%** or better for your combined weighted lab average and weighted lab quiz average is **required** in order to be eligible to obtain a passing grade in the course (i.e., to earn a grade better than E).

+ Your lowest lab grade will be dropped. But use this drop wisely, i.e., do **not** just skip a lab since all labs are important and your next missed lab may be unavoidable. If you need to miss a single lab, it's ok; but you **cannot** make up the missed lab. (You should do this lab on your own. If necessary, you may visit a PI during an office hour for help.) **If you have a valid reason for missing this lab, get documentation for your first missed lab and hold on to it.** If you miss a **second** lab, you must show **Dr. Schwartz** (not a PI) **written documentation for BOTH your first and your second missed labs.** This documentation should be official, i.e., from a doctor, judge, etc., so that a make-up can be arranged. You must notify Dr. Schwartz at least eight days **prior** to your scheduled second missed lab or **as soon as possible after** your second missed lab. **There is no excuse that will allow you to reschedule your first missed lab other than an exam in another course or an officially sanctioned academic event.** You must notify **Dr. Schwartz** at least **8 days** prior to your exam (or other event) so that an alternate lab time might be arranged.

Your lowest lab quiz grade will be dropped. Generally, this will occur when you miss the corresponding lab, but this not necessary.

@ During the second half of the semester, we will have a lecture quiz once a week. The intention of this quiz is to verify that you watched the required videos.

† 4 to 10 Homework. Although HW does not count much toward your grade, **not** doing it will likely have an effect on your quiz and exam scores.

§ Attendance is required, but is **NOT** worth positive points. Each missed class results in a deduction from your overall course total. There are no excuses for missed classes, but three classes can be missed without penalty.

EXTRA CREDIT

Extra credit is sometimes offered during class (or on the web, by slack, or by email). The amount of extra credit given is at the discretion of Dr. Schwartz unless specifically stated with the extra credit opportunity.

EXAM SOLUTIONS, HW SOLUTIONS AND LAB SHELLS

We will post homework, lab, lab program shells and other class material on our class web site at: <http://mil.ufl.edu/4744/>, along with periodic postings of your grades and the class grade book statistics. Previous exams on the course material are also posted on our web site.

SCANNING SOFTWARE

Some parts of homework, labs, quizzes, exams may require you to scan some of your handwritten work. Both *CamScanner* (<http://www.camscanner.com/user/download>) and *Fast Scanner* (<https://www.coolmobilesolution.com/>) are available for Android Phone and iPhone. Install one, & email a scan to yourself to verify that it works. Unclear scans **will not** be accepted. Unless other specified, when scans are request for a particular assignment, a **single pdf** document should be created and submitted. You also are expected to have access to a digital camera or cell phone camera for taking pictures of various hardware designs that you may construct during the semester.

HOMEWORK GRADING

You must submit homework is through Canvas by the assigned deadline. Unless other specified (sometimes additional files are requested), a **single pdf** document should be submitted for each homework. You must use the homework template provided on our website. Scans of various parts of the homework are acceptable, but the scans must be incorporated into the single submission document. Homework are generally graded in a cursory fashion, i.e., Zen grading is used. The grades will be entered into the grade book as 0 (no significant effort or not submitted), 1 (half-hearted attempt) or 2 (significant attempt). Some homework assignments are graded more strictly. The final course grades will be assigned with strict cuts between grades, but HW **could** push you above a cut. **Late homework will not be accepted.**

All grades are **non-negotiable one week** after the grade is posted on either Canvas or our website. Please don't come to me after the final grades have been posted with a hard-luck story.

COURSE REQUIREMENTS

1. Perform all laboratory experiments. A grade of 65% or better for your weighted lab average is **required** in order to be eligible to obtain a passing grade in the course (i.e., to earn a grade better than E). Your lowest lab grade will be dropped; these can be from different labs. But **use this drop wisely**, i.e., do **not** just skip a lab since all labs are important and your next missed lab may be unavoidable. Since there is a quiz on every lab, skipping it will likely cause you to do poorly on

SYLLABUS

Revision 2

27-Jan-21

the associated quiz. If you need to miss a single lab, it's ok; you **cannot** make up the missed lab. (You should do this lab on your own. If necessary, you may visit a PI during an office hour for help.) **If you have a valid reason for missing this lab, get documentation for your first missed lab and hold on to it.** If you miss a **second** lab, you must show **Dr. Schwartz** (not a PI) **written documentation for BOTH your first and your second missed labs.** This documentation should be official and from a doctor, judge, etc., so that a make-up can be arranged. You must notify the professor **prior** to your scheduled second missed lab or **as soon as possible after** your second missed lab. **There is rarely an excuse that will allow you to reschedule your first missed lab other than an exam in another course or an officially sanctioned academic event.** You must notify **Dr. Schwartz** at least **8 days** prior to your other event so that an alternate lab time might be arranged.

- If you believe that you have valid university-related reason for missing a particular lab (e.g., Lab X), send an email to Dr. Schwartz with the following information (with subject: **4744: Conflict with Lab X**, where X is the lab number).
 - State the cause for missing your Lab X and provide associated documentation for this event.
 - Info about your normally scheduled Lab X: PI's name, Lab X date (day and date) and time, and lab class number (5 digits)
 - Lab X dates (day and date) that you will be **unavailable** for your Lab X.
 - **ALL** of the Lab X dates, periods, and times (day, date, periods, and times) of the lab you will miss for which you **are** available (in order of your preference). Note that I will try to accommodate your preference **AFTER** I try to find a lab with available space.
 - If this is for an exam in another course, **first** verify that there are no alternate exam times available. If none, then provide Dr. Schwartz the course number and name, **first** and also your teacher's name, email, and phone number. Also provide a link or screen shot of the cause of the conflict.
 - Labs **must** be done at scheduled times (except as described above).
 - Students **must** be prepared to demo their lab when they enter. Students will be randomly selected for their demonstration times during their lab period.
 - A combined weighted lab average and weighted lab quiz average is of **65% or higher** is required to be **eligible** to **pass** the course!
2. Class attendance is mandatory. Roll will be taken by means of a short Canvas quiz. (The quiz is normally very simple material from the prior class or presented previously in the class in which the quiz is administered.) Each missed class when roll is taken will cost 0.5 points (out of 100) from your overall course total. Roll may be taken more than once in class; if you leave and a second roll is taken, this will be interpreted as an honor code violation.
- **No excuses accepted, but three free drops.**
 - **Missed classes and quizzes cannot be made up.**
 - Turn off all cell phones, beepers, laptop sound effects, and other noise making devices **before entering** our classroom. If a noise-making device goes off during class, I reserve the right to **lower your course grade**
 - If you miss the first two classes and do not notify me prior to your second missed class, you will be dropped from the course.
3. Do all homework assignments and turn them in **through Canvas before** the time that they are due.
- **Late homework will not be accepted.**
4. Take all exams as scheduled.
- **No makeup exams will be given except in cases of a medically documented incapacity, family emergency, or course conflict.**
 - If you believe that you have a valid practical, quiz, or exam conflict, please send me the info specified above for a lab conflict (again, at least **8 days** in advance), but with the subject: **4744: Conflict with TYPE X**, where TYPE is the type of assignment (Practical, Quiz, or Exam) and X is the assignment number. Please specify the times of your conflict, the cause of your conflict, and then times immediately before or after the scheduled exam time when you **are available**.

STUDENTS REQUIRING ACCOMMODATIONS

The University of Florida is committed to providing academic accommodations for students with disabilities. Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. See <https://disability.ufl.edu/students/get-started/> to start the process to request academic accommodations. Once registered, a student should present his/her accommodation letter to me supporting a request for accommodations. The University encourages students with disabilities to follow these procedures as early as possible within the semester. For your optimal benefit, you must see the professor **during the first week of classes**.

COMMITMENT TO A SAFE AND INCLUSIVE LEARNING ENVIRONMENT

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu

- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

UF COUNSELING SERVICES (HEALTH AND WELLNESS)

Resources are available on-campus for students having personal problems or lacking clear career and academic goals. The resources include:

- University Counseling & Wellness Center, <http://www.counseling.ufl.edu>, 3190 Radio Road, (352) 392-1575.
- SHCC mental Health, Student Health Care Center, <http://shcc.ufl.edu/>, Infirmary Building, 1 Fletcher Drive, 392-1161.
- U Matter, We Care, <http://www.umatter.ufl.edu/>, umbrella organization for UF's caring culture and provides students in distress with support.

U Matter, We Care

- Your well-being is important to the University of Florida. The *U Matter, We Care* initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need.
- If you or a friend is in distress, please contact umatter@ufl.edu so that the *U Matter, We Care* Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The *U Matter, We Care* Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center.
- Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
- **Counseling and Wellness Center:** <http://www.counseling.ufl.edu/cwc> and 392-1575
- **University Police Department:** 392-1111 or 9-1-1 for emergencies.
- **Sexual Discrimination, Harassment, Assault, or Violence:** If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the [Office of Title IX Compliance](#), located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu
- **Sexual Assault Recover Services (SARS):** Student Health Care Center, 392-1161
 - Resources for Sexual Violence, <https://umatter.ufl.edu/helping-students/sexual-violence-response/>, Immediate Response/Advocacy 392-5648 or 392-1111; Medical Care from Student Health Care Center, 392-1161
- **University Police Department:** 392-1111 or <http://www.police.ufl.edu> 9-1-1 for emergencies.
- **Career Connections Center:** <https://career.ufl.edu/>, Reitz Union, 392-1601, career development assistance and counseling.
- **University Police Department:** 392-1111 or <http://www.police.ufl.edu> 9-1-1 for emergencies.

ACADEMIC RESOURCES

- E-learning technical support, <https://lss.at.ufl.edu/help.shtml>, 392-4357, Learning-support@ufl.edu.
- Career Connections Center, <https://career.ufl.edu/>, 392-1601. Reitz Union. Career development assistance and counseling.
- Library Support, <http://cms.uflib.ufl.edu/ask>.
- Teaching Center, <https://teachingcenter.ufl.edu/>, 392-2010. Broward Hall. General study skills and tutoring.
- Writing Studio, <https://writing.ufl.edu/writing-studio/>, 846-1138, 302 Tigert Hall.
- Ombuds office, <http://www.ombuds.ufl.edu/>. Ombuds office exists to assist students in resolving problems and conflicts
- Student Complaints, Campus: <https://care.dso.ufl.edu>
- On-Line Students Complaints, <http://www.distance.ufl.edu/student-complaint-process>

COURSE EVALUATION

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at <https://ufl.bluera.com/ufl/>. Evaluations are typically open during the last two weeks of the semester, but students will be given specific times when they are open. A link to the evaluation will be available on Canvas. Summary results of these assessments are available to students at <https://ufl.bluera.com/ufl/>.

REMOTE LECTURES AND EXAMS (ZOOM AND HONORLOCK)

During this special semester, the course will be entirely synchronous. This means that your lectures and labs will occur at the times specified when you registered. Some quizzes/exams may also be during class time; others will be in the evening.

We will utilize [Zoom](#) for our lectures and labs. Your assignments will be specified on Canvas, but more information will be available on our website (www.mil.ufl.edu/4744/). All homework and lab submissions will be through Canvas. Quizzes, Practicals, and Exams will be administered through Honorlock (and Canvas Quizzes) with Zoom. Honorlock is an online proctoring service.

I prefer that students keep their camera on during the class so that I can see you as I would during normal face-to-face classes. Studies show that if we can see each other's faces then we will have more engagement, more student success, and more faculty success. However, this is not a requirement. I understand if on certain days you can't have your camera on due to internet bandwidth limitations, other family members, health issues, or any other reasons. Use your full name for our Zoom meetings, i.e., no nicknames or other alternatives.

Just prior to connecting to [Zoom](#) for our lectures, open Canvas. Sometime during most classes, there will be a Canvas Quiz. This quiz will only be available for 1 minute!

Our lectures will be given live through [Zoom](#) for interactive communication. UF students should access Zoom by utilizing the UF login. Both Zoom and Honorlock allow students to participate in the course from almost any location, as long as you have a computer, and the following required components: webcam, microphone, speaker, and a stable Internet connection. Minimum upload and download bandwidths of 2 Mbps are required for this course. If you don't have the bandwidth or any of this hardware, you must secure these in order to participate in the course. (Note that **neither** headphones **nor** earbuds are not allowed during Honorlock administered assignments.)

For Honorlock, you do not need to create an account, but will need Google Chrome (available from www.google.com/chrome/). You will also need to download the Honorlock Chrome Extension (from www.honorlock.com/extension/install).

When you are ready to start your quiz, practical, or exam, connect to relevant Zoom assignment and then turn off your camera. Now log into Canvas, go to our course, and click on the appropriate assignment. Click "Launch Proctoring" to begin the Honorlock authentication process, where you will take a picture of yourself, show your ID, your blank scratch paper (if allowed), and perform a complete a scan of your room. An adequate room scan should take approximately one minute. Honorlock will record your exam session by webcam and also record your screen. Honorlock also has an integrity algorithm that can detect search-engine use, so please do not attempt to search for answers, even if it's on a secondary device. There are many more Honorlock rules; these should be investigated BEFORE your relevant Honorlock-monitored assignments.

Honorlock support is available 24/7/365. If you encounter any issues during a quiz, exam or other assignment, contact Honorlock by live chat, which should be available inside Honorlock. If you are kicked out of an Honorlock, you can go to <https://honorlock.com/support/> and select begin live chat. At other times, i.e., not during a monitored assignment, you can send Honorlock an email (support@honorlock.com) or try to reach them by phone (844-243-2500). Zoom chat Dr. Schwartz if this problem occurs during an Honorlock-monitored assignment. If your internet goes out, connect to Zoom with your cell phone.

As part of your Honorlock-monitored assignment, at the end of the timed session, you may be asked to scan some of your exam work. See § SCANNING SOFTWARE for more information.

ONLINE COURSE RECORDING

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

SOFTWARE USE

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

TECHNOLOGY

The use of cell phones and **every other** technology device not directly specified as allowed is strictly prohibited during live assignments (labs, quizzes, practicals, or exams). All use of an electronic devices during a live assignment exam will be considered a violation of the student honor code (i.e., cheating). See the *Honesty Policy* section below for the minimum penalties that are incurred for all cases of cheating in our course.

During practical exams, no use of the internet (other than Zoom and Honorlock) or other external access is allowed. You may only use files and software on your computer that are explicitly specified by Dr. Schwartz several days prior to the practical exam date.

TWO-STEP AUTHENTICATION BACKUP

You should get a backup for the two-step authentication. See <https://it.ufl.edu/2fa/using2fa/>. There have been students who had cell phone issues just before starting an exam and were unable to participate. You can set up a friend's phone as your backup or find out how to get text's from you cell phone carrier's website. (This second option is very easy to do, and I recommend it strongly!)

STUDENT PRIVACY

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments.

COMMUNICAITION

Slack is utilized for course announcements. You are also responsible for getting the slack messages. You are also responsible for regularly checking announcements and course-related postings on the class website, Canvas, and your UF email.

MULTIMEDIA CLASS/AUDIENCE NOTES

Audience notes are normally posted on the class web site every week or so for the subsequent week or more of classes. The notes consist of pdf versions of the class PowerPoint slides. These notes are not required but are **highly** recommended. Check the class web site for information on exactly when the notes are available. **For optimal performance**, read the notes and examples for a class **before** that class and augment the material with your own notes during class. My notes are removed shortly after they are covered in class.

Historically, student that take good notes perform much better in this course then those who do not take notes (or take poor notes). Augmenting my notes with your own is strongly encouraged.

HONESTY POLICY

All students admitted to the University of Florida have signed a statement of academic honesty committing them to be honest in all academic work and understanding that failure to comply with this commitment will result in disciplinary action. The following pledge is required for all work submitted for credit by University of Florida students: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." This statement is a reminder to uphold your obligation as a student at the University of Florida and to be honest in all work submitted and exams taken in this class and all others. UF students are bound also by the **Honor Pledge** which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code." Each quiz, practical, and exam should be assumed to contain that specific pledge; opening and starting the assignment commits you to honoring that pledge.

CHEATING WILL NOT BE TOLERATED. We will actively search for cheaters; we have and will use excellent software to help us in the search. If you are caught, there will be no negotiations. You will earn a course grade penalty (often failure for the course) and get reported to UF's honor court. There are **no excuses and no exceptions**. You may talk to other students about assignments, but the final work **must** be your own. You must also report others (anonymously, if desired) that you suspect are cheating. If you are caught cheating on **any** assignment (homework, lab, or exam, etc.), you **will** be prosecuted. A meeting with the UF honor court, along with the instructor, will determine penalties, none of which are desirable or pleasant (*i.e.*, cheating in this course always results in notification to the honor court, often results in a failing grade in the course, and can possibly result in suspension or expulsion from the university). If you know someone is cheating, **it is your responsibility to report it**. For more information about cheating, the UF Honor code, and the consequences of academic dishonesty, please refer to <https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>. If you have any questions or concerns, please consult with Dr. Schwartz. The flow chart for an honor code violation is available [here](#). A link to report an academic honesty incident is available [here](#).

WORKING TOGETHER

You are encouraged to work with other students on assignments in a professional manner. Each person in the group should attempt to solve all problems **independently** and **only** then discuss the results with one's partner(s) to correct errors. Copying your partner's work constitutes cheating and should not be permitted. All solutions should reflect your style of problem solving. You may **not** copy and submit old or new posted solutions as if they were your own.

Although you may **consult** with other students, PIs, or instructors for your assignments, you **must** do independent work. Consulting means **"seeking opinions or advice," not** getting working solutions, programs, or designs, understanding them, and then modifying them to make them your own. The latter constitutes cheating (see above section). Working side-by-side to find solutions, construct a program, or design in a group constitutes cheating. (Solving homework are good practice for solving quizzes and exams, which are also **not** group activities.) **You should note that we have used and will continue to use software that can detect similar submissions.**

Failure to do your own work in lab will likely result in failure in these associated quizzes, practicals, and exams.

HANDOUTS

Handouts are supplied on-line and can be downloaded from the class web site: <http://mil.ufl.edu/4744/>.

LABORATORY GUIDELINES

LABORATORY OBJECTIVES

The purpose of this laboratory is that through the design, development, and demonstration process, you develop skills in both the hardware and software design of microprocessor based applications. The laboratory complements the lectures by providing hands-on experience with microprocessors, peripheral devices, and the required hardware and software development tools.

LABORATORY RULES & POLICIES

See [Lab Rules and Policies \(updated link\)](#) for important information that you should re-read prior to each lab submission.

LABORATORY ENTRY

Your PI has the right to either not admit you or kick you out of the lab if you are not prepared, i.e., you have not uploaded the required Canvas submissions (by the specified date and time) and/or have not built the required circuits. You may also be removed from lab if you are uncooperative or disruptive. You must be able to **demonstrate your understanding** of the design that you have created, the code that you submitted, and the lab topics in general. If you are not properly prepared, you will get a zero for the lab and will be asked to leave. You may **not** make-up this lab later. Therefore, **it is imperative that you come to lab prepared!**

LABORATORY STRUCTURE (NEW THIS SEMESTER)

This semester, we will **NOT** have quizzes during our lab periods. Our lab quizzes will occur in the evening a few days following your lab submission and before most students perform their lab demonstrations.

Also new this semester, lab times will be scheduled by your PI; you will be assigned a 10 minute window for you to perform the required lab demonstrations to your PI during your regularly scheduled lab period. Failure to be ready and on the Zoom at your schedule lab time will result in a grade of zero on that lab. We encourage you to connect to your Zoom at least 5 minutes prior to your scheduled time slot.

LABORATORY PREPARATION LIST

1. **Structure your program into functional modules and comment the modules as part of the coding.**
 - Each subroutine/function should accomplish just one function. If a subroutine extends beyond 40 instructions, it is probably doing more than one function and should be split into two or more smaller subroutines/functions.
2. **Devise means for testing each subroutine/function separately so that problem isolation (debugging) is easily accomplished.**
 - Simulate your program with the *simulator* or debug it on your board (i.e., *emulate*) **before** coming to Lab. Bring to your lab your **working** assembly code and circuit diagram file (if any) on your laptop. You will **not** be allowed in the Lab without the required submitted documentation.
3. **Arrive at the lab on time to give yourself adequate time.**

LABORATORY GRADING

You must attend your lab at the scheduled date and time; failure to do so, even if your lab deliverables were submitted on time, will result in your earning a zero for that lab.

You will not be admitted to the lab without a previously submitted Pre-Lab Report and zip file, as described in the *Lab Rules and Policies*. The *Pre-Lab Report* and other files also **must** be submitted through before the scheduled deadline. Lab files will be accepted up to 24 hours late with a 25-point penalty (resulting in a maximum possible grade of 75). Nothing will be accepted that is more than 24 hours late. You can only submit **two** labs late, after that, late labs will earn **no** credit.

Each circuit diagram, VHDL file, and assembly language program, and list file must have your name included at the top. Quartus files should be sent in a **Quartus archive file**.

Some labs will count more than other labs. Grading emphasis will be placed upon your producing well documented, well-structured programs and hardware designs that realize the functional requirements specified by the lab handout and the lab instructor. The remaining portion of your grade will result from observations by your lab instructor on such matters as your understanding of the lab, your lab techniques, your pre-lab preparation, your lab reports and your cooperation and compliance with the rules. Having your design perform properly does **not** guarantee a grade of 100, but makes a 100 grade **possible**. Lab designs and/or software that are similar and/or identical to other student's work constitute cheating (see above) and result in you failing the course, honor court charges, and possibly expulsion from UF. We have software that will be used to look for plagiarized software. There may be a quiz at the beginning of some labs. If you are late for a lab, you will get a zero for the quiz.

REMOTE LABS AND ZOOM

Our labs will be done remotely for most of you, i.e., you will not be in the same room as your fellow lab students or PI. To administer the labs, we will use Zoom for all remote students. You must follow rules for all labs:

- You **MUST** have a working web cam and microphone for your labs.
- During lab, you must keep you web cam on as well as show us your work, i.e., Share Screen | Screen.
- No email, messaging, or chats are allowed during your lab (except with your PI).

You will also utilize Zoom during Practicals and Exams.

LABORATORY ATTENDANCE

Laboratory attendance during scheduled times is mandatory. **Documented** personal or family emergency will be accepted as an excuse for absence for a **second** missed lab if documentation for a **first** missed lab is **also provided**. In such cases, consult Dr. Schwartz (**not** your PI) about a make-up lab **as soon as possible**. See *Course Requirements* for more details. Students should make serious attempts on **all** labs. **Grades less than 50% may be interpreted as not a serious attempt and may be scaled to 0.** Note: **ALL** students **MUST** have everything working **BEFORE** coming to lab.

SYLLABUS

Revision 2

27-Jan-21

Failure to attend your scheduled lab will result in a lab grade of zero, even if you previously submitted the required lab documents.

You will **not** officially make up your dropped lab. You should do this missed lab at home (or, if necessary, during a PI office hour) to be sure you understand the required material.

All grades are **non-negotiable one week** after the grade is posted on either Canvas or our website. Please don't come to me after the final grades have been posted with a hard-luck story.

See the **COURSE REQUIREMENTS** section of this document for information.

EQUIPMENT REQUIRED

1. UF 3701 toolbox including DAD and multimeter.
2. In your first lab (lab 0) you will also be given a “bag of goodies,” i.e., parts that you will use during the semester, including the UF 4744 board kit. [Note: During this special semester, you will receive your “bag of goodies” through snail mail or by picking it up yourself from NEB.]

EEL 4744 LABORATORY SCHEDULE

Lab	Tentative Lab Topics (Lab on Zoom)
0	Introduction to lab rules, your PI, and course hardware
1	Use Atmel Studio (IDE) to write an assembly program, simulate the program, download the program to the μPAD , and emulate the program on the μPAD .
2	Delay loops, built-in GPIO Port utilization with LED and switch circuits, XMEGA timer/counter. Use DAD for timer testing.
3	Timers and external interrupts (w/ timers for debouncing).
4	External Bus Interface (EBI) I/O Port Expansion (for SRAM, input port, and output port w/ expansion PCB). Bus Timing using DAD as LSA. .
5	UART Asynchronous Serial Communication (SCI) in Assembly w/ interrupts.
6	C programming. Asynchronous Serial Communication in C, Synchronous Serial Communication (SPI) - connected IMU.
7	ADC to sample CdS cell and DAD waveform. Use ADC and Events to create scope-like device.
8	Utilize DMA with DAC. Output waveforms using DAC. Create music.

SYLLABUS

Revision 2

EEL 4744 SCHEDULE (Part 1 of 2)

WEEK/DAY	DATE	Lecture #	Lab due	Lab quiz	Lab demo	Tentative Topics / Comments
1 M	11-Jan					Classes Begin
1 Tu	12-Jan	1				Syllabus, Web tour, Atmel Studio Installation
1 W	13-Jan					
1 Th	14-Jan	2-3				Intro to uP, XMEGA Architecture
1 F	15-Jan					Drop/Add Deadline: Fri, 11:59pm
2 M	18-Jan	No class				Holiday: Martin Luther King Jr. Day
2 Tu	19-Jan	4				GCPU review, Assembly examples Demo: Assembly, Simulation, Emulation
2 W	20-Jan					Addressing Modes, Instruction Set Demo: Assembly, Simulation, Emulation
2 Th	21-Jan	5-6	0	0 <small>(in class) Honorlock /Zoom</small>	0	GPIO, Ports
2 F	22-Jan				0	
3 M	25-Jan				0	Clock, Simplified Timer-Counter
3 Tu	26-Jan	7			0	Program Structures, Data Structures, Stack <i>ECE Career Fair, Jan 26-28, 9am-4pm, by appt</i>
3 W	27-Jan				0	<i>ECE Career Fair, Jan 26-28, 9am-4pm, by appt</i>
3 Th	28-Jan	8-9				<i>ECE Career Fair, Jan 26-28, 9am-4pm, by appt</i>
3 F	29-Jan		1			
4 M	1-Feb			1	1	Hardware/Software Debugging <i>CISE Career Fair, Feb 1, 10am-6pm, by appointment</i>
4 Tu	2-Feb	10			1	Include file (BM, BP, GC)
4 W	3-Feb				1	
4 Th	4-Feb	11-12			1	
4 F	5-Feb				1	
5 M	8-Feb					Resets & Interrupts; Interrupts for Timer-Counter <i>CCC Career Showcase, Feb 8-11th, 9am-4pm, by appt</i>
5 Tu	9-Feb	13				External Interrupts; Timer Interrupts <i>CCC Career Showcase, Feb 8-11th, 9am-4pm, by apt</i>
5 W	10-Feb					<i>CCC Career Showcase, Feb 8-11th, 9am-4pm, by appt</i>
5 Th	11-Feb	14-15				<i>CCC Career Showcase, Feb 8-11th, 9am-4pm, by appt</i>
5 F	12-Feb		2			
6 M	15-Feb			2	2	Address and Data Bus Timing (EBI)
6 Tu	16-Feb	16			2	Interfacing, Interfacing Examples, Address Decoding
6 W	17-Feb				2	Parameter Passing; Keypad
6 Th	18-Feb	17-18			2	LCD,
6 F	19-Feb		3		2	
7 M	22-Feb			3	3	SCI (Asynch Data Communications)
7 Tu	23-Feb	19			3	SPI Subsystem
7 W	24-Feb				3	Intro to embedded C
7 Th	25-Feb	20-21			3	Recharge day! Class (but NOT labs) MAY be cancelled.
7 F	26-Feb				3	

SYLLABUS

Revision 2

EEL 4744 SCHEDULE (Part 2 of 2)

WEEK/DAY	DATE	Lecture #	Lab due	Lab quiz	Lab demo	Tentative Topics / Comments
8 M	1-Mar					
8 Tu	2-Mar	22				Intro to embedded C
8 W	3-Mar					
8 Th	4-Mar	23-24				
8 F	5-Mar		4			
9 M	8-Mar				4	LCD
9 Tu	9-Mar	25		4 (in class)	4	D/A and A/D Conversion, A/D Subsystem
9 W	10-Mar				4	PRACTICAL 1: Wed, 10 Mar, 8:20pm (through Honorlock w/ Zoom) Lookup Table
9 Th	11-Mar	26-27			4	
9 F	12-Mar		5		4	
10 M	15-Mar					Events and Direct Memory Access (DMA)
10 Tu	16-Mar	28		5 (in class)	5	Signal Generation & Output Compare System System Clock
10 W	17-Mar				5	
10 Th	18-Mar	29-30			5	
10 F	19-Mar				5	
11 M	22-Mar				5	Other microprocessors and microcontrollers
11 Tu	23-Mar	31				No labs. Recharge day!
11 W	24-Mar					
11 Th	25-Mar	32-33				
11 F	26-Mar		6			
12 M	29-Mar					Multitasking
12 Tu	30-Mar	34		6 (in class)	6	Topic: μ P 2 and Real-time DSP Applications
12 W	31-Mar				6	
12 Th	1-Apr	35-36			6	
12 F	2-Apr		7		6	
13 M	5-Apr				6	
13 Tu	6-Apr	37		7 (in class)	7	
13 W	7-Apr				7	
13 Th	8-Apr	38-39			7	
13 F	9-Apr				7	
14 M	12-Apr		8		7	Advanced microprocessor applications
14 Tu	13-Apr	40		8 (in class)	8	
14 W	14-Apr				8	
14 Th	15-Apr	41-42			8	
14 F	16-Apr				8	
15 M	19-Apr				8	
15 Tu	20-Apr	43				PRACTICAL 2: Wed, 21 Apr, 8:20pm (through Honorlock w/ Zoom)
15 W	21-Apr					
15 Th	22-Apr	Reading Day				
15 F	23-Apr	Reading Day				Reading Day
	24-Apr					Final Exam (through Honorlock w/ Zoom): Sat, 24 Apr, 5:30pm
